The world of languages

Note

- Localingual is a community tool where phrases and translations are put online by Internet users, so be aware that some entries should be taken with caution.
- If you can’t display the page correctly, you can open it in another window by clicking here: link or trying another browser.
- To access more information about a country, simply click on it once, and double click on it to see, for example, its different regions.

Map localingual created by Marek Polakovic and Oskar Gustafsson.
